Verse

D G Em A
All the years I loved you, down through thick and thin
D G Bm A
Holding on when times were bad, graftin' to the end
F#m G Gm A
Still and all I waited at your every whim
D G
But I had to walk away
A
When I saw your eyes light up at the very sight of him

All the years I loved you, dyin' for the day
You'd wake up beside me, your eyes soft with care
You didn't have to adore me, just hold me and be there
When I reached out for your hand
Instead of always on the look out for some other man

And I wonder if you ever really loved me
Cmaj7
Or were all you words just like snow in July
G A
Wishful thinkin' while you waited for some other guy

Your ever lovin' Mister Right

All the years I tried to justify your pride
Standin' in the shadows, defendin' all your lies
F#m G Gm A
Now the story's over, you stand close to him
D G
I know that I should close the book

But do you really think he'll accept

What I put up with

No I'll melt back in the shadows

Til you need a shoulder to cry on

G A
Then look out, babe, I'll give you a taste of your own medicine
