

Excerpt Kelly The Boy From Killane

CHANGE COME SLOWLY

INTRO: D F#m G A

G A D D7
I remember you back in 1992
When they were putting us down
E7 G A
Trying to tramp us into the ground
D E7
You exploded like a flame in the night
G
With righteous indignation
A
Told us everything gonna be alright

D Bm G A
Change come slowly like the ocean
D D7
But it keep on comin' nonetheless
G A D Bm
Take my hand, oh dear companion,
E7 A
We may not find happiness
D Bm G A
But peace and then some real contentment
D D7
And a measure of social justice
G A D Bm
Oh change come slowly like the ocean
E7
But they can't stop the tide
G A D
And they're never ever goin' to stop us

G A
They got the bullets and the guns
D D7
And the propoganda machine
G A E7 G
All we ever had was an impossible dream
D E7
You stood strong as steel in the flaming night
G
Said "let us have no fear
A
The victors will be those who can the most endure"
