## INTRO

The ghosts out on the Bowery  
In their leather and their lace  
Led by Mister Kristal  
Want Television back on the stage  
Then Lester comes out screamin'  
"I just escaped from their museum  
I need a drink not a curator  
But I'm still trapped in their rock & roll dream"

Now the Stratocaster's silent, the countdown has begun  
Better hold on to the dreams you had  
Long hot summer's comin' on
